Medical and dietary problems are to be documented by your physician

1. Western Branch Academy agrees to notify the parent(s)/guardian(s) whenever the child becomes ill and the parents/guardians will arrange to have the child picked up as soon as possible if so requested by the school.
2. The parent(s)/guardian(s) authorize Western Branch Academy to obtain immediate medical care if any emergency occurs when the parent(s)/guardian(s) cannot be located immediately. If there is an objection to seeking emergency medical care, a statement is required from the parent(s)/guardian(s) that states the objection and reason.
3. The parent(s)/guardian(s) agree to inform the school within 24 hours or the next business day after his child or any member of the immediate household has developed a reportable communicable disease, as defined by the State Board of Health, except for life threatening diseases, which must be reported immediately.

OFFICE USE ONLY/IDENTITY VERIFICATION

Date of notification of Local Law-Enforcement Agency (when required proof of identity is not provided): _____

Proof of the child's identity and age may include a certified copy of the child's birth certificate, birth registration card, notification of birth (hospital, physician, or midwife record), passport, copy of the placement agreement or other proof of the child's identity from a child placing agency (foster care and adoption agencies), record from a public school in Virginia, certification by a principal or his designee of a public school in the U.S. that a certified copy of the child's birth record was previously presented or copy of the entrustment agreement conferring temporary legal custody of a child to an independent foster parent. Viewing the child's proof of identity is not necessary when the child attends a public school in Virginia and the center assumes responsibility for the child directly from the school (i.e. after school program) or the center transfers responsibility of the child directly to the school (i.e. after school program). While programs are not required to keep the proof of the child's identity, documentation of viewing this information must be maintained for each child.
